

Grow a Garden Co. — Enterprise Network Topology

Prepared by: Axel Ross R. Mendoza — BSIT 4D | ITEP 414 — Week 2 Portfolio Project

Legend

- Internet / ISP
- Network Equipment
- Security (Firewall)
- Server / Storage
- Department LAN

- Notes:
- Wireless AP: Wi-Fi 6 (802.11ax), dual-band 2.4GHz/5GHz— supports the Sales team's mobile laptops during on-site garden consultations and covers the whole office floor.
 - All departments connect via CAT6 cabling through the patch panel.
 - Firewall enforces perimeter security policy before traffic reaches the LAN.
 - UPS units (not shown) protect Router, Firewall, Switch, and Server.
